**DETAILED ACTION**

***Election/Restrictions***

1. Claims 14-17 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected method claims, there being no allowable generic or linking claim. Applicant's response, dated 1/21/2003, has been entered.

2. Applicant's election with traverse of Group 1 claims 1-13 and 18 (Election/Restriction by Examiner Poker included an typographical error.) in the reply filed on 1/21/2003 is acknowledged. The traversal is on the ground(s) that "a premolded case would not truly form an integral limit switch as obtained with the present invention." This is not found persuasive because Applicant has not argued that manufacturing a limit switch with a premolded case is not a materially different process and /or it may not be used in forming.

The requirement is still deemed proper and is therefore made FINAL. In response to this action please cancel the non-elected method claims.

***Allowable Subject Matter***

3. Claims 1-13 and 18 are allowed over the prior art of record.
